

# Write. Now.

Sit down and do this.

Take your automatic writing from yesterday's headline. **Write down** these four sentence starters:

- I wonder....
- What if...
- If only...
- Why does...

Finish these sentences, still thinking about the headline. For example:

- I wonder if a legless land fish is cute like a baby seal or not cute like an angler.
- What if they were landless leg fish? What if the world was overrun by landless leg fish?
- If only I could stop writing landless leg fish.
- Why does it bother me that a legless land fish has no legs, and apparently no water.... so why is it a fish?

You wrote today. Well done.
